RETAIL CENTER IN FRESNO, CALIFORNIA

The challenge

In today's economy, many retailers are opting for less expensive re-roofing solutions. To ensure steady cash flow, they can't afford to let the re-roofing process disrupt business. The new roofing system must be installed economically, efficiently and with minimal disturbance to the businesses below. That was the case with this retail center on Fresno's busy Shaw Avenue corridor.

The process

- Applied a re-ply elastomer roof system
- Included embedded layer of polyester fabric for strong, seamless finish

The result

This has proven to be an excellent, cost-effective solution for refurbishing existing roofing systems, with an ease of application that makes the process quick and non-disruptive – a benefit greatly appreciated by the center's tenants.

“In my business, time is money. I need to be able to pick up the phone and talk to the president of the company. When I do that with Barrier, I know the job is going to be done right. Barrier Roofing is going to get it done on time, and the pricing is going to be completely fair. That's why we use Barrier.”
